**Stitching with Lisa...**

- The quilting tip I wish I'd learned first started is... That it's okay if it's not perfect. I spent a lot of time trying to be perfect.
- My best advice to new quilters is to... Finish. It's okay to have a few unfinished projects but nothing feels better than finishing a project.
- When it comes to quilting/sewing tools, don't get between me and my... My starch, my triangle paper, and my 60mm rotary cutter.
- Don't tell anyone, but when I'm sewing, I don't worry about... what I look like!
- My rock-star stitch group" includes... Anyone who wants to join me! I love meeting new quilters, and veteran quilters, and helping them on their way to quilting happiness and success.
