Cutting Notes: Mark and store your cutting pieces according to the block they have been assigned to, as this will make it much easier when you start piecing. Be sure to read the entire pattern before you begin. Pattern involves curved piecing techniques.

Designer Note: Print (1) copy of Block A – Templates A and B. Print (1) Copy of Block B - Templates A, B, and C. Follow the cutting instructions to match the fabrics with the template indicated. Some templates will be printed on two sheets of paper due to the size of the template. Cut out templates, align the black lines around the edges of the template and tape in place. Template A in both Blocks A and B are identical. Optional: You may cut out templates using template plastic or a matching curved piecing ruler.

Piecing Instructions

For all curved piecing instructions, fold and press each template in half to mark the exact middle of the template. Using an erasable marker, make a dot on the middle crease of each template and a 1/4" from each end of the template that will be sewn. Pin templates together at each mark before sewing to keep templates aligned.

While sewing use fingers to smooth the 1/4" seam as you go. Sew slowly for accurate and neat curved piecing.
