Making the Basket Blocks

Refer to the photo for color placement guidance.

1. Draw a diagonal line on the wrong side of the 3" polka dot squares. Layer the marked squares right sides together with the 3" black bark squares, and sew $1/4"$ on each side of the drawn line. Cut the squares apart on the drawn line. Make five matching half-square-triangle (HST) units for each block. Trim the HST units to measure $2\frac{1}{2}"$ square.

2. To make the bottom unit for each basket, lay out five matching HST units, one matching $2\frac{1}{2}"$ polka dot square, six $2\frac{7}{8}"$ black bark triangles, and two taupe linen rectangles as shown. Sew the pieces together in rows and then sew the rows together. Join a 5" taupe linen triangle to the base of the unit.

3. To complete the basket unit, sew a 9" taupe triangle to the top of the unit. *Note: Several blocks have stems that need to be appliquéd before sewing this triangle to the base of the basket.* Trim the basket unit to measure $10\frac{1}{2}" \times 10\frac{1}{2}"$. Make nine units.

4. Sew 8" triangles to all four sides of each basket unit as shown in the photo to complete the block. Make nine blocks.

Appliquéd

5. Following the manufacturer's instructions, trace the listed number of each pattern onto the paper side of the fusible web. Roughly cut out each shape about an $1/8"$ outside the drawn line.

6. Fuse each shape on the wrong side of the fabric as indicated in the cutting list. Cut out each shape on the drawn line.

7. Referring to the quilt photo, position and fuse the shapes to the basket blocks. Finish the raw edges of each shape with a decorative stitch such as a satin or blanket stitch.

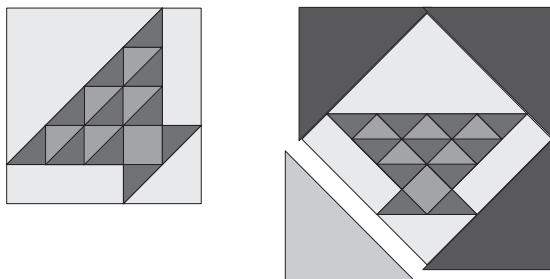

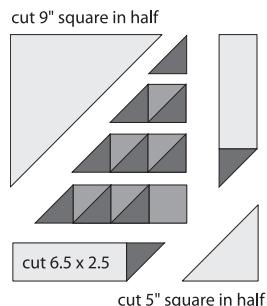

8. Sew the blocks together in three rows of three blocks each as shown in the photo. Then appliquéd the wreath blocks and remaining shapes to the quilt top.

Finishing

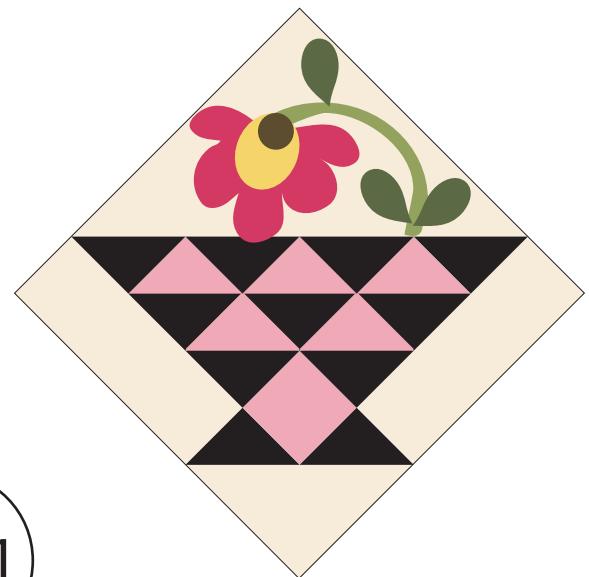

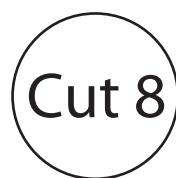

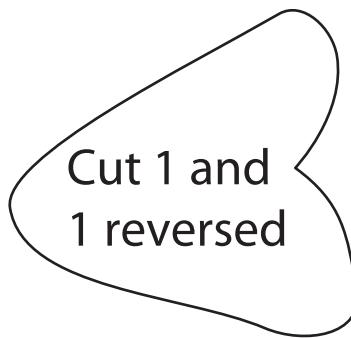

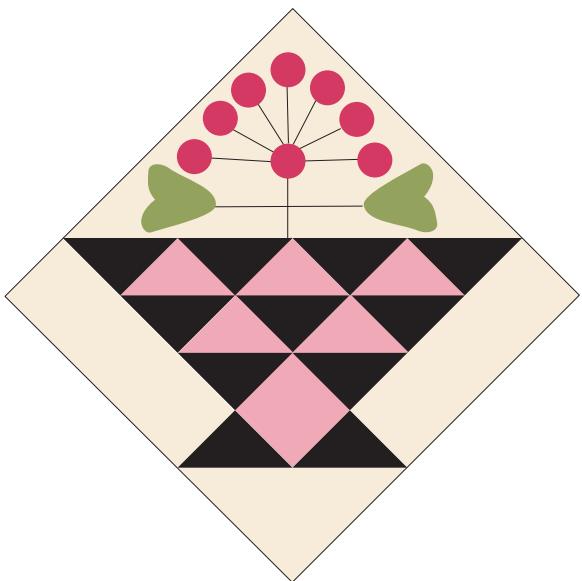

9. For the inner border, sew the $1\frac{1}{2}"$ -wide black bark strips together end to end. Measure the width of the quilt through the center and cut two strips to this length. Sew the strips to the quilt top. Measure the length of the quilt, cut two strips to this length and sew them to the quilt top.

10. For the outer border, measure the width of the quilt through the center and trim two $6\frac{1}{2}"$ -wide main floral strips to this length. Sew the strips to the quilt top. Measure the length of the quilt, trim the two remaining strips to this length and sew them to the quilt top.

11. Layer, quilt and bind as desired.
